Troubleshooting

1. If your desktop does not have a valid XenApp Web Client installed, this will be displayed on the left half of the screen, figure 7:

Applications
Download Client
By selecting the check box, you confirm that you have read, understand, and accept the <u>Citrix license agreement</u> .
U Download
Other Options
Already installed
Try later
Log off
Icking Download will install software on your computer. <u>More information on security</u>
Figure 7

2. If you select a XenApp delivered application icon, but do not have a working XenApp client the following message is displayed:

Figure 8

3. Cancel from the above prompt. Select the "Problem connecting?" link at the bottom

FDM Rural Users – VPN WebLink User Guide

4. Proceed with the client download and install.

Applications
Download Client
If By selecting the check box, you confirm that you have read, understand, and accept the <u>citrix license agreement</u> .
↓ Download
Other Options
<u>Already installed</u>
Try later
Log off
Olicking Download will install software on your computer. More information on security
